Re: Broward County Proposed Noise Mitigation Principles

Ms. Lane:

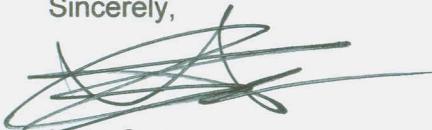

Pursuant to the FAA's request, this letter represents the Broward County Aviation Department's (BCAD) submission of the Noise Mitigation Principles that are proposed for inclusion in the FAA's Environmental Impact Statement (EIS) and Record of Decision (ROD) associated with development and extension of the preferred runway alternative and other associated projects at the Fort Lauderdale-Hollywood International Airport (FLL). Below is an outline of the seven (7) noise mitigation principles the County is recommending to be considered by the FAA regarding existing and forecasted conditions for FLL.

1. **Apply the long-term/ultimate unrestrained contour** - Apply mitigation principles and identify mitigation eligibility areas using the long-term/ultimate unrestrained contour of the Runway Alternative approved in the ROD.
2. **Establish mitigation areas based on neighborhoods** - Utilizing the contours of the approved project; establish areas eligible for mitigation with the objective of keeping neighborhoods intact by incorporating natural boundaries and neighborhood blocks.
3. **Voluntary acquisition of mobile home parks in the +65 DNL** - Relocation of residents and acquisition of the mobile home park/business. Convert the property to a compatible use. In accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, provide relocation assistance for residents to either County developed affordable housing or other locations. Future use of the acquired property would be controlled by recorded restrictive covenants.
4. **Sound proofing and easement** - Soundproofing offered to all eligible single- and multi-family units; in addition compensation for outdoor impacts will be offered above Uniform Appraisal Standards for Federal Land Acquisitions at a valuation that will be determined at implementation of the program.
5. **Purchase assurance / sales guarantee** - For those that decline soundproofing, implement a purchase assurance program to acquire the property at Fair Market Value. Future use of the acquired property would be controlled by recorded restrictive covenants.
6. **Voluntary acquisition of existing residentially zoned vacant parcels** - Voluntarily acquire existing residentially-zoned, vacant parcels at Fair Market Value and coordinate with the local communities to change the zoning and land use plan to compatible use. Future use of the acquired property would be controlled by recorded restrictive covenants.
7. **Provide noise mitigation in excess of minimum federal guidelines.**
